Ref: Post of Software Tester / QA Engineer,

Respected HR Professional,

As a highly dedicated and skilled Software Tester (QA Engineer), I came to know your job posting for a new Software Tester on Job portal/Internet. With interest, my experience aligns well with the qualifications you are seeking at your organization. I am certain would make a valuable addition to your organization. After going through the job duties on Job Portal, which are very much close to my current profile.

As per my past experience with different domains and clients, I truly believe that I am fit for this opportunity not only as a job perspective but also as a bright opportunity consideration for long time. With more than four years' of experience as a Software Tester, I am adept in test plan, test strategy and test case design, creation and execution of test cases, user requirements understanding, and Agile/Scrum methodology. Moreover, while my on-the-job experience has afforded me a well-rounded skill set, including first-rate organization and collaboration skills, I excel at

- Analysis the requirements for desktop, web based applications or product. (Testing perspective)
- Creating, Updating, executing and Reviewing test cases for the applications or product development.
- Working with developers to track backlog items by proper testing estimation.
- Investigating defects, reproducing problems, and documenting findings.
- Overseeing team workload and assigning testing tasks for Manual and Automation.
- R&D activities related to testing.

In addition to my experience and personal qualities, I have little bit of team handling experience and project coordination. I am extremely enthusiastic about company's focus on business software solutions and would welcome the opportunity to contribute to your success by maximizing your client satisfaction with high-quality software solutions.

Kindly go through my attached resume for additional details regarding my expertise and career achievements. I will follow up to request an appointment to discuss how my experience and background meets your need. Looking forward to hearing to be a part of excellent working environment team and company.

Thank you for your time and consideration,

Sincerely,  
Hitesh T. Patel
